

Aluminum wire cut pill

The application range of aluminum wire cut steel shot:

It is widely used in the surface treatment of metal casting parts, precision castings, hardware tools, mechanical manufacturing, automotive parts, instruments and meters, pumps and valves, etc., such as oxide scale removal, burr removal, elimination of surface defects, stress relief, etching, matte effect, surface smoothing, strengthening, and rust prevention before coating. blue.

Technical indicators

Name	Aluminum wire cut pill
Chemical composition	Al $\geq$ 99%
Microhardness	45~50HV
Tensile strength	80~240Mpa
Owen life	6500 次 Times
Metallographic structure	Deformed alpha phase
Density	2.7g/cm ³
Packing density	1.5g/cm ³
