

Copper wire cut pill

Application fields:

Widely used in metal die casting, precision castings, hardware tools, machinery manufacturing, auto parts, instruments, valves and other industries to remove skin, deburring, eliminate surface defects, to internal stress, etching, matte effect, leveling, strengthening, anti-rust before spraying and other surface treatment.

Technical indicators

Name	Copper wire cut pill
Chemical composition	Cu: 58~99%, 余 Zn
Microhardness	110~300HV
Tensile strength	200~500Mpa
Owen life	5000 次 Times
Metallographic structure	Deformed α phase or $\alpha + \beta$ phase
Density	8.9g/cm ³
Packing density	5.1g/cm ³
