

Zinc pellet

Application range of zinc wire cut pill:

Widely used in metal die casting, precision castings, hardware tools, machinery manufacturing, auto parts, instruments, valves and other industries to remove skin, deburring, eliminate surface defects, to internal stress, etching, matte effect, leveling, strengthening, anti-rust before spraying and other surface treatment.

Technical indicators

Name	Zinc pellet
Chemical composition	$\text{Zn} \geq 99\%$
Microhardness	45~50HV
Tensile strength	90~120Mpa
Owen life	6000 次 Times
Metallographic structure	Deformed alpha phase
Density	7.1g/cm ³
Packing density	4.1g/cm ³
