

Zinc wire cut pill

Application fields:

Zinc wire cut pellets are widely used in metal die casting, precision castings, hardware tools, machinery manufacturing, auto parts, instruments, valves and other industries to remove oxidation, deburring, eliminate surface defects, remove internal stress, etching, matte effect, flat, strengthening, rust prevention before spraying and other surface treatment.

Technical indicators

Name	Zinc wire cut pill
Chemical composition	$\text{Zn} \geq 99\%$
Microhardness	45~50HV
Tensile strength	90~120Mpa
Owen life	6000 次 Times
Metallographic structure	Deformed alpha phase
Density	7.1g/cm ³
Packing density	4.1g/cm ³
